### **Introduction For Context:** (personal circumstance & inspiration you're welcome to skip)

On March 19<sup>th</sup> I posted [this update](#) on Facebook. It basically stated that my fiance (an “at-risk patient” due to a heart condition) had spoken with nurses and doctors, and received news that they had discovered that the virus which she had experienced in late December/early January, which they had been unable to identify at that time, was now confirmed to be COVID-19.

Both her home nurse, and medical staff at Sutter Hospital (including nurses and Dr's) had also conveyed that it wasn't as serious as people were claiming. They had reviewed the numbers coming from China and gotten information on how they were treating it there, (dosing with Vitamin-C and sending people home): and that it was No More Deadly Than Normal cold and flu viruses.

In response, many people commented and multiple discussions started. A few (not in my circle of friends) accused me of lying, others (included a few internet “friends”) said that what I was saying was dangerous, and that I shouldn't be sharing that information publicly, as it might lead to people deciding not to follow recommended precautions.

I received this response repeatedly on various social media sites I posted this to, and one of my friends responded saying **“if people base their decisions on what someone else posts, that says more about their intelligence than the poster”**. While agree; this isn't about opinion, it's about facts.

As someone who used to work in the legal profession, I can tell you that **my fiance's statements are first-hand eye witness testimony: considered credible and admissible as evidence if she went to court over the matter**. My reporting of it is no less valid than a journalist, let alone a newscaster.

**“In a time of universal deceit, telling the truth is a revolutionary act.” ~ George Orwell**

In a society where fear/paranoia, irrationality, ignorance, slander and bigotry are commonplace; simply sharing the truth we heard from actual medical staff is apparently revolutionary as well. Some of the responses I received were actually likely prosecutable as slander, defamation and/or libel as well. It was a real mess.

This inspired me to spend much of the next month, sometimes 8-10 hours a day, hunting down evidence and witness testimony to further explore what's really going on, for the sake of my own family as well as the population at large.

This level of intense research is nothing new for me. Like Graham Hancock, I have spent

unhealthy amounts of time doing research, especially for articles, classes and books I have been writing over the last decade. While I now practice a healthier time/rest balance than I have in the past; I still practice rare techniques which allow me to get more rest in less time. This of course allows me a lot of time for my research.

With an extensive global network and a background in both technology and legal matters, it wasn't hard to pull together a substantial amount of credible information and witness testimony. As I write this introduction, having only pulled information from two of the many social media platforms through which I had shared some of the key pieces of information, I now have more than eight pages of content.

I don't ask you to take my word for it. I ask you only to review the evidence, and decide for yourself what to believe and act on, making an informed rather than an ignorant decision for you and loved ones.

I present this information for your review in the same manner as we have seen any court case presented in movies and TV shows. Here is credible information and evidence, including first-hand witness testimony admissible in court.

Doctors and other scientists have reviewed the actual documentation and testified to the inaccuracy of the story the mainstream media and representatives from the WHO and the National Institute of Allergy and Infectious Diseases (NIAID).

**Both lawyers and scientists, including doctors from MIT and other reputable world organizations, have not only called the “official story” a lie/hoax; but have publicly called for Fauci's resignation, investigation and even prosecution for crimes against humanity.**

This list includes Dr. Ron Paul and R.F. Kennedy Jr. who is the head of a legal defense organization protecting the rights and health of children, called **Children's Health Defense.**

Okay. I have held my tongue about this COVID-19 insanity but after #CNN used MY face to report outright LIES that continue to incite the mass hysteria around this issue.. all bets are off! My son starts blowing up my phone today saying DAD you are on the news about the Corona Virus! I was completely confused... so I find out that while reporting on the conditions in San Francisco as a result of the virus they used footage of ME and others during Hurricane Harvey in HOUSTON lined up outside of Kroger's on Westheimer near the Bellway! CNN is using MY face to present misleading journalism that continues to seriously impact our economy and the every day decision making of the public. This is not okay.. do actual research for yourself. Get info from Health

Think for yourself and **be careful... *NOT paranoid*; fear disrupts your health and your ability to think clearly...** but review the bigger picture and **choose wisely who's hands to put your life (and those you love) in.**

This is not to say anything negative about medical staff: they are only doing what they've been taught. We know many nurses and some doctors who are great, who want people to know the truth, but have to be careful what they say because most states have adopted laws which literally prohibit them telling you what they know; especially about natural healing plants like Aloe Vera: despite over 20 years of FDA testing verifying thousands of years of medical claims from use in every major culture around the world in which it grows.

Drug companies have controlled our medical system for over 100 years thanks to corrupt rich profiteers, primarily Rockefeller who got Homeopathic medicine outlawed and facilitated the takeover of the modern medical system by his drug companies.

Doctors who refused to go along with his corrupt agenda were imprisoned for using healing technology developed by Nikola Tesla, technology well-proven and used by most doctors at the time, similar to what you see on Star Trek.

So, I say again, **be careful in who's hands you place your life.**

## Dangers of Vaccines:

[Children's Health Defense](#) post [April 11 at 6:30 AM](#) on Facebook:

“Why are the **world's top vaccine promoters**, like **Paul Offit** and **Peter Hotez**, frantically warning us about the unique and frightening **dangers inherent in developing a coronavirus vaccine?**

Scientists first attempted to develop coronavirus vaccines after China's 2002 SARS-CoV outbreak. Teams of US & foreign scientists vaccinated animals with the four most promising vaccines. At first, the experiment seemed successful as all the animals developed a robust antibody response to coronavirus. *However*, when the scientists exposed the vaccinated animals to the wild virus, **the results were horrifying**. Vaccinated animals **suffered hyper-immune responses** including **inflammation** throughout their bodies **terminating with fatal lung infections**. Researchers had seen this same **"enhanced immune response"** during human testing of the failed RSV vaccine tests in the 1960s. Two children died.

Offit, Hotez and even Anthony Fauci (in an unguarded moment), have warned that **any new coronavirus vaccine could trigger lethal immune reactions when vaccinated people come in contact with the wild virus**. Instead of proceeding with caution, Fauci has made the **reckless** choice to fast track vaccines, **partially funded by Gates**, without animal studies (that could provide **early warning** of runaway immune response). Gates is **so worried about the danger that he says he won't distribute his vaccines until governments agree to indemnify him against lawsuits**. On Feb 4th 2020, when there were only 11 active CV cases in the USA, the U.S. quietly pushed through Federal regulations giving coronavirus vaccine makers **full immunity from liability**.

Notes under the above video^

5G is coming, and people are worried. Well, should we be?

To answer that question, we need to know what studies have been done on the safety of microwave-frequency digital radio transmissions.

We need to look at WiFi, Bluetooth, 3G, and 4G studies, as well! After all, much of the concern about 5G is based on the results of those studies.

It turns out that there ARE a ton of studies out there that indicate that yes, it looks bad.

Of course, there is also the SAR "heating effect" argument, which is part of the problem as we'll see...

Now, as bad as this stuff sounds, the fact is we need more studies - or rather, a thorough, long-term study with control groups, the proper consideration of other toxins, and so on.

In short, we need a continuation of the studies mentioned in these papers. At the moment, that seems unlikely to happen.

So, there you have it: Why I don't like to use and be saturated in WiFi, Bluetooth, and cell phone signals! (Sourced from Universities of Washington and Berkley)

Think what you want, but if you're not seeing the censorship and asking what they're afraid of that they would violate freedom of speech and freedom of the press and many other human rights, you're not paying attention.

If you think it's just "the Democrats" or "Republicans", you're not seeing the big picture either. It's over 10x bigger than that.

Both "parties" were designed to be pit against each other, and the supposed representatives of both parties are now banding together to the shock of their followers, and showing their true colors.

It's not about the parties, it never was; it's about the agenda they're all following from someone else higher up the pyramid (scheme).

Gullible people think multi-level marketing is a pyramid scheme, but if done correctly it's a path to financial success. This is the Real pyramid scheme that tops all of the rest throughout history.

To understand what Trump just did with The Fed, I suggest watching this documentary. There is a bigger picture to all of this. I suggest you look over my other posts to gather the rest of the pieces of the puzzle and put together the greater perspective of what's going on.

This is not to say that I completely trust or agree with everything Trump or the government is doing. I don't completely trust everything anyone does. We are all imperfect humans, with Egos, weaknesses, flaws and blind-spots.

I believe in taking back the functions of the government from private hands, and I believe in complete transparency. Nothing less will satisfy me. I do not give loyalty to artificial groups or organizations. My loyalty is to humanity.

Organizational and national boundaries are imaginary human constructs. They can be beneficial, but if we lose sight of their illusory nature we become susceptible to holding an artificially limited perspective and loyalty to an imaginary construct.

### **In Summary:**

There's a lot going on. As much as we have covered here, we have actually collected many more articles and videos full of evidence on the matter, but we don't want to overwhelm you.

Despite censorship, information abounds. Independent media platforms, alternative news agencies and courageous journalists willing to take the heat for sharing evidence which goes against what we're told to believe abound online. Many such sources have been presented here, and many more are available.

The point of all this was not to be a presentation of the complete picture, but rather to give you more than enough information and sources of further information: for you to educate yourself and make informed decisions about who to trust, what to believe and how to move forward.

By Natural/Civil/Divine Law, as intelligent adults; it is your right to decide for yourself and those in your care how to live your lives. As long as you do not *intentionally harm* anyone, you have a right to live as you please.

In private organizations, you have the right to the same freedoms. State and Federal Laws do not necessarily apply. This is how some co-op organizations are able to sell raw, non-pasteurized milk

and other natural foods claimed unsafe by organizations **funded by the same elite families who own the drug companies and 85% of world companies AND GOVERNMENTS.**

We highly recommend that you educate yourself on your rights and freedoms, and dedicate yourself to standing up for them, before “The Elites”/Deep State/Illuminati (they are known by many names around the world) take them away just as **THESE SAME NAZI FAMILIES** did in Germany. As *Svali* revealed years ago, **the leaders of the Illuminati are Nazis.**

**Declassified documents on Operation Paperclip: The CIA and the Nazis** have proven, as outlined in detail in the Zeitgeist movies referenced previously: that **these are the same families behind the Nazi party and WW2,** and much more of the world's conflicts going back all the way to ancient Rome. **This is nothing new.**

...But again, it is up to you what to learn and believe. Just remember; what you don't know can kill you and those you love. Do not fear, but educate yourself so that you can make an empowered decision.

Knowledge is powerful. Without knowledge, which brings understanding: you can't make an informed decision; and can easily be manipulated. This is the purpose of “the dumbing down of America”, as some call it. We hope that you are smarter than they think we are.

We wish you happiness, peace and health.
